
PODIATRY

At MyHealth Podiatry, our skilled podiatrist is dedicated to improving the well-being of your feet. We specialise in addressing a wide range of foot issues, whether it's heel pain, general discomfort, or concerns about your child's flat feet, we've got you covered. Our commitment extends to providing expert guidance on various foot-related matters, such as diabetic foot assessments, paediatric podiatry, toenail surgery, and lower limb pathologies. We're here to provide tailored solutions that not only improve your foot health but also enhance your overall quality of life.

PODIATRY SERVICES:

- Heel/Foot Pain
- Orthotics/Insoles
- Children's Podiatry
- Ingrown toenail surgery
- Warts/Verrucae's
- Diabetic Foot Assessments
- Sports Injuries
- Gait Analysis
- Footwear Advice

We also welcome:

Enhanced Primary Care program (EPC Medicare),
Veterans (DVA) , Workcover, NDIS

Heel & Foot Pain Relief: If you're struggling with ongoing foot or heel pain, we offer comprehensive assessments to identify the root causes. From there, we provide effective treatments and recommendations to reduce your pain and enhance your foot health.

Orthotics: We provide quality 3D printed orthotics offering customised solutions optimally supporting your feet, leading to enhanced comfort, improved functionality, and effective pain relief.

Children's Foot Care: We understand the importance of early intervention when it comes to children's foot health. Whether your child has flat feet, in-toeing, or out-toeing, our compassionate podiatrist will assess their condition and provide age-appropriate treatments to ensure healthy foot development.

Stepping Towards Healthier Feet!

MyHealth Podiatry

At MyHealth Podiatry, we're your foot health experts, offering specialised care for heel pain, foot discomfort, children's foot issues, and more. Our experienced podiatrist provides personalised treatment plans to alleviate pain and enhance your foot health, ensuring confident steps towards well-being.

FEES

Feel free to reach out to the MyHealth Marketplace clinic to enquire about our professional fees. It's important to note that you generally do not need a medical referral to see a podiatrist. However, if you intend to seek coverage under DVA, Medicare, or WorkCover, it's essential to obtain a referral from your general practitioner (GP).

Most Private Health Insurance providers often include coverage for podiatry services, which is advantageous for you. To ensure that you are fully informed about your coverage for podiatry services, we recommend checking with your health insurance provider to determine the extent of your benefits and coverage.
